This Is My Life!

Using Prezi to Present a Timeline on Your Life

2nd Grade

Language Arts

The student is to create a timeline of their life using Prezi. The content of the product will have to be graded by judgement because you cannot grade on a person's life. The graded part of this product will be if they have all the requirements and how it is made. Without a rubric this project could overwhelm a student. Even though they are only second graders, they have done a lot in their lives. The rubric will narrow it down. It's what they put in that specific section that can become more creative.
