

BETHANY

LUTHERAN COLLEGE

March 5, 2017

To Whom It May Concern,

I highly recommend Morgan Schwarz for a teaching position within your school. I have known Morgan for the past several years in my role as Associate Professor of Education and Licensure and Compliance Coordinator of Bethany Lutheran College.

I have had the opportunity and pleasure to work with Morgan in a number of classroom and clinical settings throughout her teacher training program. Morgan is both thorough and pedagogically sound in her lesson planning and classroom management. She has demonstrated a skill for teaching and in particular, has a mind for standards based instruction and integrating technology into her classroom. Additionally Morgan is extremely professional in her interactions with peers and instructors. I would be honored to serve with Morgan as a colleague in any classroom setting.

As a part of her training here at Bethany Lutheran College, Morgan has created a professional portfolio. I would encourage you to look at some of the artifacts in her portfolio as I believe it will give you a clear picture of her talent for teaching and her strength in integrating technology into her lesson planning process.

I would not hesitate to add Morgan Schwarz to any faculty of which I would be a part. I highly recommend her to you and your administration. Do not hesitate to contact me for further information.

Yours,

Dr. Carrie F. Pfeifer
