

# Asian Indian

—

By: Cassie Schroer, Trevor Larson and Alicia Kranz

# Context-High or Low

- Asian Indian- closer to low, with some high
- Prefer straight forward discussion
- Highly respectful
- Responsibility is placed more on the listener to keep up
- Similar to Americans
- Family orientated

# Activity-Being or Doing

- Doing culture
- Value culture and relationships
- 5x the national average of masters, doctorate and other degrees
- Like “titles” which make them feel important

# Authority-Formal hierarchical or Informal egalitarian

- India would be considered Informal Egalitarian
- Their culture has a fundamental constitution that lists their rights
- Everyone is mainly treated equally
- Dress is usually casual
- Those who are dressed ragged are poor or beggars
- Women like to look nicer when out in public and dress so they do not reveal much skin

# Identity-Collective or Individual

- Indian culture is considered collective
- They to work as a group, whether it be with their family or society
- They help those around them

# Time-Abundant or Limited

- Limited
- Move quickly into careers, homes and married life.
- 71% BA or higher
- 38% Masters/Doctorate

# Worldview

- MODERN
- Scientific answers.
- Relationships, Family, and History are very important.
- Religion and cultures
